Dear Mr. Kuehler:

In response to your question on whether adding your oil additive to our equipment would have any impact on the warranty status of our equipment.

After contacting a few people involved in the manufacturing of compressors and also other service managers from different manufacturers other than mine I see no reason that your product would be detrimental to the operation of our equipment.

If there is anything else I can do, please let me know.

Best Regards

Louis J. Smith Jr.

Service Manager Carrier South Texas.
