Subject: **Frigi Tech on York Centrifugal Chillers**

Dear Alan

I am pleased to inform you that with your assistance and support, we treated 3 units of York Centrifugal Chillers recently. These include 1 unit of 300-ton chiller and 2 units of 600-ton chillers.

The customer was skeptical initially on the effectiveness of Frigi Tech and was concerned of negative effective on the chiller itself. The customer is now satisfied that the product has met their expectation and concerns.

Energy consumption data collected from one of the 600-ton chillers shows a savings of 15.06%.

Before Installation :	3572 KWh/day
After Installation :	3034 KWh/day
Savings :	15.06%

The first installation was completed Oct 2003. So far, the customer is very pleased with the performance of Frigi Tech.

We are very encouraged by this feedback from the customer. We will continue to promote Frigi Tech aggressively so that more customers can enjoy its benefits.

Yours sincerely
